WWT Super Slider 3 (SS3) Non-Rotating Protectors (NRP)™

• Reduce torque and drag
• Protect against casing, riser, and drill pipe wear
• Reduce buckling, heat checking, vibration and stick-slip
• Open-hole capabilities

Collar Material | 6061-T651 Extruded Aluminum Alloy |
Sleeve Material | Advanced Low-Friction Polymer, Nitrile Rubber and Alloy Steel Sheet |
Max. Temperature | 220°F (105°C) |

Features and Benefits

• Sleeve design enhances torque and drag benefits.
• Positive protection against casing and riser wear during drilling and completion operations.
• Significant torque reduction created by WWT’s patented fluid bearing design allows for improved ROP, RPM, and hole cleaning.
• Compatible with almost all drilling and completion fluids.
• SS3 Protector design allows for open-hole applications.

Optimum operating performance range of 20 – 250 RPM.
Each assembly accepts up to 36,000 lbs. of axial force before slippage.
Installation time per assembly: less than 1 minute.
Free, no-obligation, confidential torque, drag and wear analysis.
Global leadership in some of the world’s most challenging drilling environments since 1989.
On/off-site technical support 24/7.
