Flow Loop Testing

Get the information you need.

WWT provides testing services to simulate flow for new product qualification, troubleshooting, tool diagnostics, and technology comparison under controlled conditions in a private setting. The flow loop is available for test durations ranging from a day to multiple days. A digital file of all recorded parameters will be delivered at the conclusion of testing.

Pump Capacity

- 3,000 psi max
- 10 bbl/min max

Pump Media (surcharge may apply)

- Water
- Brine
- Mud – oil or water-based
- LCM

Recorded Data

- Pressure – resolution +/- 2 psi
- Rate
- Temperature
- Sample Rate – 100 Hz
